

**DR. NELSON YING
TRI REGION SCIENCE
AND ENGINEERING FAIR**

**Statement from Congressman Maurice Hinchey
22nd Congressional District, NY**

June 15, 2009

U.S. Rep. Maurice Hinchey: The Ying Tri Region Science and Engineering Fair is an important resource for students throughout New York State that serves as an inspiration for them to consider possible careers in these critical fields.

Educating the next generation of New Yorkers is one of our most important commitments, and this program is a wonderful opportunity for middle and high school students from the across the Hudson Valley, Catskills, Southern Tier and the rest of the state. As we work to attract high tech industries to New York and make our state a leader in new technologies, including renewable energy, it is vital that we encourage our students to pursue science and engineering fields. I deeply appreciate all those who contribute to make this program available to our students and thereby invest in the future of our state.

Dr. Nelson Ying Tri Region Science and Engineering Fair
